Welcome

A very warm welcome to West Lancashire College.

We deliver education and training to thousands of students and businesses each year, providing a wide range of courses to suit everyone.

We offer A Levels, including our unique School of Medicine programme, BTEC, Technical and Apprenticeship Programmes, and from September 2023 a range of brand-new T Level qualifications in Building Services Engineering, Digital Support Services, Education and Childcare, and Health.

As a successful and dynamic college serving the communities of West Lancashire and surrounding areas, we work hard to support you to achieve the qualifications you need to help you to progress to your chosen career.

We have expert teachers and great connections with employers and universities to help you take the next step into your dream career, whether you progress straight into work after college or choose to study for a higher education qualification at university.

As well as studying for your chosen qualification, during your time with us you will also have opportunity to participate in some fabulous trips and visits to International, European and UK destinations.

Our philosophy is simple – we put our students at the heart of all that we do, ensuring that you have the best possible learning experience during your time here.

In January this year we were visited by Ofsted and were delighted to be graded 'Good'. Our Ofsted inspection outcome reflects the hard work and commitment of the fabulous team of staff at the college, as well as the valued contributions made by our partners.

I am sure you will find a course to suit you at West Lancashire College, and we look forward to supporting you to achieve your future goals.

Best wishes

Denise Williamson

Principal

Choosing your course

We offer a wide range of academic and technical programmes that lead to university, employment or Apprenticeship. Whatever your career ambition you can find your next step here.

A Level programmes

Our A Level programmes offer much more than standard A Levels, and have been designed in partnership with leading employers and universities to give you a distinct competitive edge for progression to University.

As well as traditional A Levels, if you are an aspiring medic, you can choose to study our unique School of Medicine programme.

T Level Programmes

T Levels are two-year courses designed with businesses and combine college learning with a substantial work placement. These qualifications are for students who want to develop knowledge and skills which helps get straight into employment, an Apprenticeship or higher education, and are equivalent to three A Levels.

Apprenticeships

Apprenticeships offer nationally recognised qualifications whilst gaining skills with an employer.

Learn on the job, building up knowledge and skills and earn money at the same time.

Vocational Courses

Our vocational courses include BTEC and NCFE CACHE qualifications.

A BTEC Level 3 Extended Diploma is equivalent to three A Levels A* - C. BTECs are nationally recognised, work related qualifications that give you the knowledge, understanding and skills that you will need to progress to University, an Apprenticeship or employment.

Technical Courses

Technical courses are industry-specific and offer training at a variety of levels. They provide knowledge and practical skills needed to progress into further study, skilled employment or Apprenticeships.

University Progression

Whether you study A Levels, T Level, or a BTEC/ CACHE NCFE Level 3, you can progress to university. Please see UCAS Tariff tables below:

UCAS Tariff Tables

Vocational (BTEC & T Levels)	Grade	Tariff points
Grade	D*D*D*	168
Grade	D*D*D	160
Grade	D*DD	152

Grade	DMM	112

Vocational CACHE	Grade	Tariff points
Grade	A*	168
Grade	A	144
Grade	B	120
Grade	C	96
Grade	D	72

A Levels	Grade	Tariff points
Grade	A*A*A*	168
Grade	A*A*A	160
Grade	A*AA	152
Grade	AAA	144
Grade	AAB	136
Grade	ABB	128

Our Campus

Set in the town centre, our impressive campus features a light, open atrium area with high quality student facilities including; The Diner, Café West, The Imagery Hair & Beauty Academy, Dance Studio, Hope Theatre, Art & Photography studios, Student Hub, Learner Zone, Sports Hall, Sports Physio Laboratory and Massage Clinics, The Works Restaurant, A Level study area, purpose built Construction, Engineering & Logistics Centre plus our brand new high-tech STEM Centre The School of Science.

Open Events

We are proud of our college and fabulous facilities, however the best way for you to find out more about life at West Lancashire College is to come along to one of our Open Events. These events are a great opportunity for you to speak to our expert tutors and also the employers and universities that we work with closely to ensure we help you meet your career aspirations.

Monday 17 October 2022 4.30pm-7pm

Thursday 24 November 2022 4.30pm-7pm

Monday 6 February 2023 4.30pm-7pm

To register your place please go to [eventbrite.co.uk](https://www.eventbrite.co.uk)
or [westlancs.ac.uk](https://www.westlancs.ac.uk)

Learner Services, Fees, Finance & Support

Learner Services are based in The Learner Zone. The Learner Services team members are trained and qualified to support you and should be your first point of contact for any query you may have.

This could be about:

- Careers and progression advice
- CV preparation
- Applying to University
- Free College Meals
- Financial Support
- Bursaries
- Travel passes
- Financial support for kit costs
- Applying to college
- Wellbeing
- Information, advice and support
- Interviews
- Study Skills
- One to one study support.

For further information please contact Learner Services on **01695 52393**
email: ask-the-adviser@westlancs.ac.uk

Many students benefit from extra support to help them with their studies. The additional learning support team can help you with any support needs you may have whilst in college. A range of support is available, including support for students with:

- Dyslexia
- Dyspraxia
- Asperger's Syndrome
- Physical Disabilities
- ADD/ADHD
- Hearing/Visual Impairment
- Mental Health Concerns
- Learning Difficulties
- Personal Care Needs
- Exam Support.

ESOL support is available for students for whom English is not the main language. You will complete an initial assessment in maths and English. This helps us to identify the right level of course for you. The assessment also identifies if you would benefit from extra support with English and/or maths during your studies. Throughout your programme of study, you are encouraged to ask for additional assistance if you feel this would help you.

If you need advice on the range of facilities and equipment available, or if you have an EHC Plan, please contact the ALS Team on **01695 52300**.

Travel to College

Learner Services are located on the ground floor of the Learner Zone and can help you with travel to college. We offer a designated college coach service from the following locations:

Liverpool – Kirkby, Aintree, Maghull, Aughton, Ormskirk, Westhead, Old Skelmersdale

Southport – Formby, Birkdale, Southport, Scarisbrick, Burscough, Parbold, Newburgh, Ashurst

Wigan – Hawkley, Winstanley, Goose Green, Marus Bridge, Pemberton, Orrell, Upholland, Digmaor, Tanhouse

Please ask in Learner Services for further details: **01695 52393** / ask-the-adviser@westlancs.ac.uk
**subject to eligibility and availability*

Better Connected

Whether it's a work placement you need, an industry mentor, or advice on how to enter a particular field of work, we've got the industry contacts you need. We work with 100s of employers, including Peel Ports, HCRG Care Group, Open Reach, West Lancashire Clinical Commissioning Group, Edge Hill University and the NHS to ensure that you have access to the best advice and opportunities.

Careers

Our qualified Careers Advisers and Learner Service Assistants will support you with Careers Information, Advice and Guidance throughout your learner journey. There is a Careers Library and Careers Hub packed with information in Learner Services and the career resources gives you full access to:

- Career drop-in workshops
- Computer packages including Careers Coach
- Career specific literature
- Higher education prospectuses
- Company literature
- Job hunting information

For more details about careers resources just contact Learner Services.

How to Apply

Choosing a career and a college can be a difficult decision but here at West Lancashire College we want to ensure you are making the right choice for your future career.

STEP 1 Apply online www.westlancs.ac.uk

STEP 2 Book a college interview appointment online

STEP 3 Attend a college interview event

STEP 4 After you have finished your exams take some time to relax and enjoy your summer break - you've earned it!

STEP 5 In July you will be invited to attend a welcome to college event, and you will receive an appointment to enrol on GCSE Results day in August.

Parents & Carers

We always welcome support from parents/carers. We have an excellent advice and guidance team to take young people through all their options, focusing wholly on their needs and finding the best route to fulfil their potential and achieve their ambitions.

We value parents/carers support and want to work in partnership with you to maximise success on their course.

You can help us by:

- Encouraging students to be on time for class.
- Ensuring students attend all elements of their study programme including their main course, Maths and or English if appropriate, Tutorial, Work Experience placement and enrichment.
- Ensuring that we have your correct contact details.
- Attending the parents/carers evenings during the year – these give you the opportunity to meet staff and check on progress.

- Encouraging students to tell us about any concerns they have regarding their studies and life at college.
- Not taking students out of college for family holidays or non-essential medical or dental appointments during term time.
- Completing our Parent Survey to give us feedback on how we can improve.

We believe that working together with parents/carers is key to our students' success.

We welcome you to all the events and review meetings the college hosts and especially value your feedback and input on what more we can do to ensure your child achieves their full potential.

A Level Subjects

Biology

OVERVIEW

A Level Biology gives you the opportunity to study a range of topics such as populations and environmental biology and mechanisms used to control processes in cells and organisms. Many students who enjoy and successfully complete this subject typically progress onto a range of degree courses including: Medicine, Dentistry, Veterinary Science, Biochemistry and Biological Sciences.

COURSE CONTENT

Students will cover the following topics: biological molecules, cells, organisms exchange substances with their environment, genetic information, variation and relationships between organisms, energy transfers in and between organisms, organisms respond to changes in their internal and external environments, genetics, populations, evolution and ecosystems, the control of gene expression.

LEARNING & ASSESSMENT

You will be taught in small class sizes, an average of 15 students, alongside like minded individuals by experienced A Level teachers. You will have regular assessments, small topic tests, larger progress tests and homework all comprising of past exam questions. You will sit 3 exams at the end of the 2 year programme. You will also be assessed on laboratory skills.

PROGRESSION & CAREER OPPORTUNITIES

A Level Biology allows progression to many science degrees and a wide range of future careers including: Academic Researcher, Biotechnologist, Doctor, Marine Biologist, Microbiologist, Nanotechnologist, Pharmacologist, Research scientist (life sciences), Surgeon and Laboratory Technician. Biology graduates are well placed to succeed in any job where data handling or research skills are important. These jobs would not necessarily have to be restricted to science-based employers. Biology is a fundamental subject for careers in the science and health sectors but there are many other routes you can take.

ENTRY REQUIREMENTS

Applicants require 5 GCSEs at grade 5 or above including English & Maths. In addition, for applicants taking Double Award GCSE Science, you will need at least grade 6/6. For applicants taking Triple Award GCSE Science, you will need at least grade 6 in Biology.

“

The support I get from my teachers is amazing. The unique small class sizes allows me to easily get extra help on the topics I am struggling with, which has been extra valuable when learning from home.”

Chemistry

OVERVIEW

Studying Chemistry can open doors that you didn't even know existed. It is a highly respected A Level and combines theoretical understanding with practical and analytical skills. If you like to ask 'why?' Chemistry is for you. The food we eat, the air we breathe, the clothes we wear and the mobile phone in your pocket all depend on Chemistry. Chemistry holds the answer to our biggest global challenges. From stable food supplies to changes in the environment and delivery of essential medicines, a chemist will be at the heart of the solution.

COURSE CONTENT

Physical Chemistry; atomic structure, amount of substance, bonding, energetics, kinetics, chemical equilibria and Le Chatelier's principle.

- **Inorganic Chemistry**; periodicity, Group 2 the alkaline earth metals, Group 7 (17) the Halogens.
- **Organic Chemistry**; introduction to organic chemistry, alkanes, halogenoalkanes, alkenes, alcohols and organic analysis.
- **Physical Chemistry**; thermodynamics, rate equations, the equilibrium constant, electrode potentials and electrochemical cells.
- **Inorganic Chemistry**; Period 3 elements and their oxides, transition metals, reactions of ions in aqueous solution.
- **Organic Chemistry**; optimal isomerism, aldehydes and ketones, carboxylic acids and derivatives, aromatic chemistry, amines, polymers, amino acids, proteins and DNA, organic synthesis, NMR spectroscopy and chromatography.

LEARNING & ASSESSMENT

Continuous assessment for learning takes place with a focus on helping you to identify areas of strength and opportunities to improve. From knowledge based problems to analysis and practical skills, each area will be developed over the two year course helping you to achieve your best. All will be examined at the end of 2 years in 3 exams with no coursework. You will also be assessed on laboratory skills.

PROGRESSION & CAREER OPPORTUNITIES

A Level Chemistry allows progression to many science degrees, many of which Chemistry is an essential entry requirement including for degrees in; Medicine, Dentistry, Veterinary Science, Chemistry, Chemical Engineering, Biochemistry, Pharmacy and Pharmacology. A Level Chemistry can lead to a range of future careers including Academic researcher, Analytical Chemist, Biotechnologist, Chemical Engineer, Clinical scientist, Biochemistry, Forensic Scientist, Nanotechnologist, Pharmacologist, Research Scientist (physical sciences), Scientific Laboratory Technician and Toxicologist.

ENTRY REQUIREMENTS

Applicants require 5 GCSEs at grade 5 or above including English & Maths. In addition, for applicants taking Double Award GCSE Science, you will need at least grade 6/6. For applicants taking Triple Award GCSE Science, you will need at least grade 6 in Chemistry.

Maths

OVERVIEW

Maths is an exciting and challenging subject that will help to develop your understanding of maths and mathematical process in a way that will help your confidence and will be thoroughly enjoyable. You will extend your maths skills and techniques building upon your GCSE, and in particular you will rely on your algebraic skills. You will be able to recognise how a real-life situation may be represented mathematically.

COURSE CONTENT

Pure Mathematics Content

- Algebra and functions
- Co-ordinate geometry in the plane
- Sequences and series
- Trigonometry
- Exponentials and logarithms
- Differentiation
- Integration
- Differential equations and modelling
- Numerical methods
- Vectors

Applied Mathematics Content

- Statistics
- Statistical sampling
- Data representation and interpretation
- Probability
- Statistical distributions
- Statistical hypothesis testing

Mechanics Content

- Quantities and units in mechanics
- Kinematics
- Forces and Newton's laws
- Moments – Statistical.

LEARNING & ASSESSMENT

You will learn in a variety of ways, being encouraged to do independent learning with the aid of technology as well as more traditional classroom teaching and learning. There will be regular internal tests to check your progress and at the end of the two years you will sit three papers with the examining board AQA.

Paper 1: Synoptic Pure content from Year 1 and Year 2.

Paper 2: Synoptic Pure and Mechanics content from Year 1 and Year 2.

Paper 3: Synoptic Pure and Statistics content from Year 1 and Year 2.

PROGRESSION & CAREER OPPORTUNITIES

Maths graduates have one of the highest rates of graduate employment. Mathematicians enter a very wide range of career areas ranging from aerospace and defence to finance. Studying Maths provides you with valuable skills and a firm base for life-long learning. Maths is highly regarded within higher education and is frequently considered as a 'required subject' for entry onto certain degree courses such as Engineering, Economics, Finance, Sciences and many more.

ENTRY REQUIREMENTS

Applicants require 5 GCSEs at grade 5 or above, including at least grade 5 in GCSE Maths and English.

Physics

OVERVIEW

Physics allows you to appreciate how fundamental science works. It is problem solving on both the largest and the smallest scale imaginable. Physicists use the laws they uncover to develop new materials, machinery, and technology to improve our lives and help us explore the universe further, from computers to telescopes and spacecraft.

COURSE CONTENT

First Year content:

- Forces and motion
- Electricity
- Waves
- Quantum Physics
- The particle world

Second year content:

- Circular motion
- Simple harmonic motion
- Gravitational fields
- Electric fields
- Magnetic fields and Induction
- Thermal Physics
- Nuclear Physics
- Radiation
- Option topic available

LEARNING & ASSESSMENT

There is no coursework, although your performance during practical work will be assessed and you will need to keep a lab book as a record of your work.

There are three exams at the end of the two years and at least 15% of the marks are based on what you learn during the practical work.

Paper 1: 2 hours 34%

Paper 2: 2 hours 34%

Paper 3: 2 hours 32%

PROGRESSION & CAREER OPPORTUNITIES

Physics A -Level is frequently considered as a 'required subject' for entry onto certain degree courses which means it can be useful for accessing a wide range of university courses.

Physics offers an infinite number of amazing career opportunities including geophysicist/field seismologist, healthcare scientist, medical physics, research scientist (physical sciences), scientific laboratory technician, meteorologist, operational researcher, product/process development scientist, systems developer, technical author.

ENTRY REQUIREMENTS

Applicants require 5 GCSEs at grade 5 or above including English & Maths. In addition, for applicants taking Double Award GCSE Science, you will need at least grade 6/6. For applicants taking Triple Award GCSE Science, you will need at least grade 6 in Physics. In addition students will also need GCSE Maths at grade 6 or above.

Psychology

OVERVIEW

Psychology is the scientific study of the mind and human behaviour. If you are interested in understanding the complexity of human nature, then Psychology will give you an insight into how and why people behave in certain ways.

COURSE CONTENT

Students will cover the following topics:

- Social Psychology
- Cognitive Psychology
- Biological Psychology
- Learning Psychology
- Child Psychology
- Clinical Psychology

During these topics you will develop an understanding of research skills and be required to conduct your own practical studies. As such it is useful for students to have sound numerical and scientific skills.

The issues and debates topic highlights these skills and requires you to critically discuss the scientific challenges when studying psychology, including ethics, individual differences and social control.

LEARNING & ASSESSMENT

There are three examination paper, all 2 hours in duration, as follows:

Paper 1: Foundations in Psychology

Paper 2: Applications in Psychology

Paper 3: Psychological Skills

PROGRESSION & CAREER OPPORTUNITIES

For any career involving interactions with others, psychology will be a useful underlying skill. This includes careers such as police, nursing, human resources, advertising, law, politics, teaching, research and many more. Careers directly related to psychology are broad and include working in traditional roles as clinical, educational, forensic or occupational psychologists as well as the more progressive areas such as health and sports psychology.

ENTRY REQUIREMENTS

Applicants require 5 GCSEs at grade 5 or above including English & Maths, plus at least a Grade 5 Maths, (and ideally a Grade 5 in Psychology, if taken), or a similar essay-based subject at GCSE.

Sociology

OVERVIEW

Sociology is a social science concerned with the study of human social relationships and the various ways these relationships are patterned in terms of social groups, organisations and societies.

You will look at the diversity of family types in our society today, whether childhood still exists, which gender performs better within education and why this is. You will research patterns in criminal behaviour and the impact of the mass media upon individuals by assessing issues such as whether exposure to violent media can make us act in a violent way. You will take part in discussions and debates in relating to controversial topics and will develop and apply knowledge of research methods.

COURSE CONTENT

Students will study the following topics:

- Families and Households
- Education
- Mass Media
- Crime and Deviance
- Theory and Methods

LEARNING & ASSESSMENT

A Level Sociology is 100% exam based, all exams are 2 hours as follows:

Paper 1: Education with Theory and Methods

Paper 2: Families and Households and Mass Media

Paper 3: Crime and Deviance with Theory and Methods

PROGRESSION & CAREER OPPORTUNITIES

Many students study Sociology at degree level, many choosing to focus on specific elements, such as criminology.

Sociologists tend to progress into careers within the caring profession in occupations such as mental health nursing, social work, teaching and jobs within human resources.

ENTRY REQUIREMENTS

Applicants require 5 GCSEs at grade 5 or above, including English & Maths, plus at least grade 5 in Sociology, if taken, or a similar essay-based subject at GCSE.

The School of Medicine Programme

The School of Medicine is truly unique and much more than just classroom teaching, it offers an extensive wrap around programme designed to give students a distinct competitive edge.

Our programme offers extensive extra-curricular activities that are designed to give exposure to a wide range of research and academia which enable students to gain a broader understanding of potential career opportunities available within the medical sector, and includes:

THE PROGRAMME

You will study a combination of A Levels including:

- A Level Biology
- A Level Chemistry

Plus one or two of the following:

- A Level Maths
- A Level Psychology
- A Level Sociology

ENTRY REQUIREMENTS

Applicants require 44 points from their best 8 GCSE's at Grade 7 or above including English, Maths and Science.

WORK PLACEMENT

All medicine students attend a guaranteed work placement. Students shadow Doctors, Nurse Practitioners, Pharmacists and other roles within GP surgeries and medical centres.

The placement programme allows students to explore the various roles with the medical sector first hand, plus provides an understanding of how the different members of the team work together for the best care of the patient, students also have the opportunity to follow a single patient whilst investigating the patient journey.

Within the timetable there are opportunities for students to volunteer within the local community and gain experience working with the general public.

A LEVELS IN A MEDICAL CONTEXT

A Levels within The School of Medicine are taught in a medical context, enabling students to be fully immersed in their chosen career path from day one. In addition, our A Level timetable provides 33% more contact time than other A Level programmes giving students additional tuition to ensure their success. Students benefit from small class sizes, with on average 15 learners per class, which enables extensive support and guidance.

MENTORING

The School of Medicine work closely with Doctors and health care practitioners who support our students as they apply for Medicine. They help provide extra tuition for UCAT and BMAT entrance exams, mentor students through A Levels and help with interview techniques. Our mentoring programme provides an invaluable and highly successful service to our medical students.

FULL PREPARATION FOR UNIVERSITY INCLUDING UCAT & BMAT TUITION

Students are fully prepared for the university application process and follow a structured preparation journey from personal statement to entrance exam and university interview.

Students are tutored on common medical interview themes such as the four pillars of medical ethics, data analysis and the qualities of being a doctor. All students are prepared on common questions, techniques and the unique qualities each specific medical school looks for, and receive tailored tuition for UCAT, BMAT and aptitude tests. Our extensive preparation programme culminates in simulated mock interviews with multiple stations, just like the real thing.

Preparation is enhanced by our guest seminars where students gain tips for their personal statement and interview advice. In addition, students develop a wider understanding of NHS Hot topics and medical ethics, all required at interview.

The School of Medicine students have progressed to study Medicine and medical related degree programmes at universities across the UK including Oxford, Leicester, Glasgow, and Lancaster amongst others.

EXTENDED PROJECT QUALIFICATION (EPQ)

Our Medicine students also have the opportunity to complete an Extended Project Qualification, allowing opportunity for students to extend their abilities beyond their A Level study, stand out and prepare for university or their future career.

STUDENT PROFILE - ELIZABETH

Former Standish High School pupil

Currently studying:

The School of Medicine A Level Programme

“

My experience at West Lancashire College has been very positive, especially with helping me gain my work experience placement in a dental practice. I shadowed both the Dentist and the Hygienist, I was taught to chart and also made my own impressions and fillings.”

THE SCHOOL OF MEDICINE TRIP TO GHANA 2022

GUEST SEMINARS, TRIPS & VISITS

The School of Medicine students are able to explore their understanding of different careers in Medicine through a vast number of guest seminars either in college with invited guest speakers, or by attending external events.

Guest speakers have ranged from experts in cutting edge Cancer research and progressive brain diseases such as Alzheimer's to specialist in end-of-life care. These guest lectures give students a detailed insight into the ever-evolving medical profession and the research that underpins it. Lecturers visit from a wide variety of Universities with close links to the top 5 medical schools in the North West. In addition to these eye-opening lectures, as a student of The School of Medicine you will have the opportunity to visit the medical schools of your choice.

All of our extra-curricular wrap around has been designed to give students diverse exposure to the range of medical careers available. Students are able to gain tips for their personal statement, medical exams and interviews, as well as receive expert careers advice.

“

The best thing about studying in The School of Medicine is the tailored work experience which will allow me to have the competitive edge when applying to Universities.”

T-LEVEL COURSES

T-LEVELS

THE NEXT LEVEL QUALIFICATION

WEST LANCASHIRE COLLEGE NOW OFFERS NEW AND EXCITING T LEVEL QUALIFICATIONS* IN CONSTRUCTION, DIGITAL, EDUCATION & CHILDCARE AND HEALTH, AND YOU CAN APPLY NOW TO STUDY A T LEVEL WITH US IN SEPTEMBER 2023.

WHAT ARE T LEVELS?

T Levels are two-year courses that combine college learning with a work placement. These qualifications are for students who have just finished GCSEs and want to develop the knowledge and skills that will help you go straight into employment, an Apprenticeship or higher education.

T Levels are the equivalent to three A Levels and you will spend 80% of your time in college and 20% on a 45 - day placement with an employer.

WHAT ARE THE BENEFITS OF T LEVELS?

- Created with businesses - more than 250 businesses have helped design T Levels meaning they give you the skills that employers are really looking for
- Combine work and study - you spend most of your time learning in college, but the other 20% you will spend on work placement with an employer, where you will gain real work experience.
- Progression opportunities - whether you want to go into higher education, an Apprenticeship or straight into work, a T Level will give you a nationally recognised qualification to help you do just that.
- UCAS points - T Levels are worth UCAS points and a T Level Distinction* is worth the same as 3 A levels at A.

HOW ARE T LEVELS DIFFERENT TO A LEVELS, APPRENTICESHIPS OR OTHER COURSES I CAN STUDY AT COLLEGE?

T Levels are vocational courses. This means they focus on teaching you the practical skills and knowledge you will need for your future career.

A Levels focus on theory, and you spend all your time in the classroom, studying three or four subjects of your choice.

T Levels focus on the practical side of learning, so you will spend 80% of your time in the classroom learning both theory and hands-on skills, and the remaining 20% of your time you will spend gaining work experience with a real employer putting those skills into practice. With a T Level, you study one subject with different pathways, in order to gain in depth knowledge and skills in your chosen area.

This is different from an Apprenticeship, where the focus is more on workplace training.

On an Apprenticeship, you spend 80% of your time in a real, full-time job, with 20% of the time spent in a classroom being supported.

We offer a wide range of other vocational courses across our different subject areas, and all of them are designed to give you the hands-on skills you need. They differ to T Levels in the amount of time you spend with an employer.

One T Level is equivalent to three A Levels, just like many of our other vocational courses are. Whether you choose an A Level, a T Level, or another Level 3 vocational course, you will still be awarded UCAS points which you will need if you wish to progress to degree level study.

VISIT [TLEVELS.GOV.UK](https://www.tlevels.gov.uk)

80%

CLASSROOM

20%

WORKPLACE

ENTRY REQUIREMENTS

For each T Level pathway, you will generally require a minimum of Grade 4 in at least 5 GCSEs and there may be a requirement that these include a subject-related GCSE and English and/or maths.

Students may also need to participate in an assessment to ensure suitability ahead of enrolment. Please see individual courses within this guide for further details.

*T Level courses are currently pending approval and West Lancashire College will take all reasonable steps to provide the courses as described in this guide. In the event that we are unable to deliver specific T Level pathways, we will communicate to applicants and work to find alternative and suitable programmes

CONSTRUCTION: DESIGN, SURVEYING AND PLANNING

BUILDING SERVICES DESIGN – LEVEL 3*

LENGTH: 2 YEARS

QUALIFICATION GAINED:

CITY & GUILDS LEVEL 3 T-LEVEL IN CONSTRUCTION: DESIGN, SURVEYING AND PLANNING – BUILDING SERVICES DESIGN

On this two-year course you will spend most of your time in college learning the theoretical and practical skills you will need and develop an understanding of a broad range of issues relevant to the sector.

You will be taught by tutors who have years of experience working in the industry and undertake an industry placement with an employer for a minimum of 45 days throughout your course, giving you the chance to put your new skills into practice and be prepared to thrive in the workplace.

VISIT [TLEVELS.GOV.UK](https://www.tlevels.gov.uk)

[westlancs.ac.uk](https://www.westlancs.ac.uk)

T-LEVELS
THE NEXT LEVEL QUALIFICATION

WHAT WILL I LEARN?

YOU WILL STUDY THE FOLLOWING CORE MODULES:

- health and safety
- the science behind building design, surveying and planning
- making accurate and appropriate measurements
- construction methods
- building regulations and standards
- data management and information standards in construction
- relationship management and customer service
- how the Internet of Things (IoT) impacts construction
- digital engineering techniques
- mathematical techniques to solve construction problems
- construction design principles and processes
- the construction industry and its role in the economy
- sustainability and the environmental impact of construction
- business, commerce and corporate social responsibility

YOU WILL ALSO LEARN ABOUT TOPICS SPECIFIC TO DESIGN, SURVEYING AND PLANNING, INCLUDING: MACHINING AND TOOLMAKING TECHNOLOGIES

- project management
- budgeting and resource allocation
- procurement
- risk management

WORK EXPERIENCE OPPORTUNITIES

Work experience is an important part of your T-Level. You will undertake a substantial industry placement with an employer for a minimum of 45 days during your course to help you prepare for your next steps. You will also undertake an employer-set project as part of the course.

45 DAYS PLACEMENT

ENTRY REQUIREMENTS

Students will ordinarily require a minimum of Grade 4/5 in at least 5 GCSEs including English and Maths. Students may also need to participate in an assessment to ensure suitability ahead of enrolment.

*Subject to Approval

ENGINEERING & MANUFACTURING

**DESIGN AND DEVELOPMENT FOR ENGINEERING AND
MANUFACTURING – LEVEL 3***

LENGTH: 2 YEARS

QUALIFICATION GAINED:

CITY & GUILDS LEVEL 3 T LEVEL IN ENGINEERING & MANUFACTURING - DESIGN AND DEVELOPMENT FOR ENGINEERING AND MANUFACTURING

On this two-year course you will spend most of your time in college learning the theoretical and practical skills you will need and develop an understanding of a broad range of issues relevant to the sector.

You will be taught by tutors who have years of experience working in the industry and undertake an industry placement with an employer for a minimum of 45 days throughout your course, giving you the chance to put your new skills into practice and be prepared to thrive in the workplace.

VISIT [TLEVELS.GOV.UK](https://www.tlevels.gov.uk)

[westlancs.ac.uk](https://www.westlancs.ac.uk)

WHAT WILL I LEARN

YOU WILL STUDY THE FOLLOWING CORE MODULES:

- working within the Engineering and Manufacturing Sectors - an understanding of how materials, conditions and context influence design processes and products
- essential mathematics for engineering and manufacturing - a knowledge and understanding of mathematics including standard matrices and determinants and standard trigonometry
- materials and their properties - understanding material processing techniques and their effects on materials and material quality, the condition of materials, how these are managed, and materials testing methods and techniques
- business, commercial, and financial awareness - basic commercial principles including commercial priorities and markets, customers/clients/partners, and resource allocation

YOU WILL ALSO TAKE THE FOLLOWING SPECIALIST UNITS:

- fitting and assembly technologies
- machining and toolmaking technologies
- composites manufacturing technologies

WORK EXPERIENCE OPPORTUNITIES

Work experience is an important part of your T-Level. You will undertake a substantial industry placement with an employer for a minimum of 45 days during your course to help you prepare for your next steps. You will also undertake an employer-set project as part of the course.

45 DAYS PLACEMENT

ENTRY REQUIREMENTS

Students will ordinarily require a minimum of Grade 4/5 in at least 5 GCSEs including English and Maths. Students may also need to participate in an assessment to ensure suitability ahead of enrolment.

T-LEVELS

*Subject to Approval

DIGITAL PRODUCTION, DESIGN AND DEVELOPMENT

**DIGITAL PRODUCTION, DESIGN AND DEVELOPMENT
– LEVEL 3***

LENGTH: 2 YEARS

QUALIFICATION GAINED:

PEARSON LEVEL 3 T-LEVEL QUALIFICATION IN DIGITAL PRODUCTION, DESIGN AND DEVELOPMENT

This two-year full-time T-Level course will provide you with all the skills and industry-experience you need to kick-start your career. Learning from industry-experienced tutors whilst gaining invaluable experience through a work placement, you will learn digital skills such as programming and emerging issues and impact of digital as well as legislation and regulatory requirements and security.

You will undertake an employer industry placement for a minimum of 45 days throughout your course, giving you the opportunity to put your new skills into practice and thrive in the workplace.

VISIT [TLEVELS.GOV.UK](https://www.tlevels.gov.uk)

WORK EXPERIENCE OPPORTUNITIES

Work experience and industry placements are an important part of your T-Level. Students must complete a minimum of 45 days of work experience to achieve their overall grade for their T-Level programme.

45 DAYS WORK EXPERIENCE

WHAT WILL I LEARN?

YOU WILL STUDY THE FOLLOWING CORE MODULES:

- Problem solving
- Introduction to programming
- Emerging issues and impact of digital
- Legislation and regulatory requirements
- Business context
- Data
- Digital environments
- Security.

You will also complete an occupational specialism component (Digital Production, Design and Development).

ENTRY REQUIREMENTS

Students will ordinarily require a minimum of Grade 4/5 in at least 5 GCSEs including English and Maths. Students may also need to participate in an assessment to ensure suitability ahead of enrolment.

Art & Design

The Arts and Culture Sector in the UK has an annual turnover of £100 billion, and each year tourists to the UK spend £900 million on artistic and cultural products. Would-be artists from all over the globe come to the UK to study in our colleges and universities, knowing that the Arts education available here is amongst the best in the world.

STUDENT PROFILE - NOURHAN

Lathom High School

Achieved:

Art & Design Extended Diploma Level 3

Progressed to:

University of Central Lancashire, BA (Hons) Graphic Design

OVERVIEW

Our courses provides you with the opportunity to pursue your career goal in a wide-range of Art & Design specialisms. The initial term will introduce you to working in professional art and design studios, this will include working in 2D, 3D and digitally with Apple Mac computers. You will also have the opportunity to work in a photographic darkroom and fully equipped studio. From that point forward we will tailor your course to match your career goal, enabling you to work with negotiated briefs which will develop your specialist art skills and prepare you for university study.

COURSES

Art & Design Extended Diploma Level 3

4 GCSEs Grade 4–9 including English and/or Maths

STUDENT EXPERIENCE

- Specialist facilities including two fully equipped Apple Mac suites, a large traditional Art Studio that caters for 2D and Textiles/Fashion, a 3D Art Studio, a Photographic Darkroom and Photography Studio
- Working on Arts Council England funded projects (such as the recent 'Illume' - photographic and sound art project)
- Brutalist Art Project - concrete relief sculptures
- Day trips to important UK galleries including Liverpool Tate, The Walker Gallery, The Lowry, the National Media Museum in Bradford, The Chapel Gallery and the Lady Lever Art Gallery
- Entrepreneurial and work based activities
- Extra-curricular projects and collaborations
- End of Year Creative Arts Exhibition
- Work experience opportunities with local employers in the arts industry.

- Liverpool John Moores University, BSc Construction, The Built Environment

STUDENT PROFILE - CARLA

Former Upholland High School pupil

Currently studying:

Carpentry & Joinery Level 2

“
I’ve always loved practical work and so, choosing Carpentry and Joinery was possibly one of the best decisions I’ve made. I really enjoy the course and one day, I hope to gain enough experience to run my own business.”

Digital

Our BTECs in Computing are widely accepted by universities and provide an excellent foundation for a range of IT and Computing degree courses. Success on these courses will allow students to progress into IT related careers including software & games development and technical support.

OVERVIEW

Learn all about software development, games development, web development, data analysis, software design and project management, how to set up and configure technology systems, explore current and emerging technologies, learn about security protection and risk management, experience working as an IT support technician, understand IT network features and functions, common practices in network security, and the function and features of the main network appliances.

COURSES

Information Computing & Technology Extended First Certificate Level 2

4 GCSEs Grade 3–9 including English and/or Maths

Computing Extended Diploma Level 3

4 GCSEs Grade 4–9 including English and/or Maths

STUDENT EXPERIENCE

- Games Engines – industry standard
- Networking Facility
- Virtual reality games machines
- Drone component and systems training
- Raspberry Pi – programming including Scratch and Python
- Coding Academy
- Robot Wars
- Emotion Robotics Masterclass
- Humanoid Robots including Pepper and Nao
- E-Sports League
- Discovery Computer Science Day
- Arcade Club
- Employer Partners, Work Experience including Fairbanks
- Partnership Universities including Edge Hill University
- Trips to Silicon Valley, San Francisco, Berlin Museum of Computing, Budapest, Games Expos

OUR STUDENTS GO TO UNIVERSITY TO STUDY

- BSc Web Development, Edge Hill University
- BSc Information Systems, Liverpool John Moores University
- BSc Computing, Edge Hill University
- BSc Games Programming, Edge Hill University
- MSc Computing, Edge Hill University

CAREERS

- Web Developer
- Computer Programmer
- Security Analyst
- Systems Analyst
- Systems Manager
- Systems Designers
- IT Business Analyst
- Games Developer

Early Years Education

Working in childhood education is an exciting and rewarding career where every day is stimulating and different. You will need to be creative and motivated to inspire young minds to develop through play and give them the foundations of learning for lifelong success. OVERVIEW

Child development, play and learning, meeting children's physical development, physical care and health needs, collaboration with parents, colleagues and other professionals in early years, supporting children's communication and language, supporting children's personal, social, emotional development, child protection, observations, assessment and planning for play and development, diversity, equality and inclusion in the early years, reflecting on own early years practice.

COURSES

Introduction to Health & Education Level 1

4 GCSEs Grade 2–9 including English and/or Maths

Early Years Practitioner Level 2 Diploma

4 GCSEs Grade 3–9 including English and/or Maths

Childcare and Education Level 3 (Early Years Educator)

4 GCSEs Grade 4–9 including English and Maths

In addition you will be required to obtain a satisfactory DBS check.

STUDENT EXPERIENCE

- Hands on experience every week in a child care setting
- Innovative teaching from experienced staff members
- Stimulating classroom environments
- Enrichment trips
- First Aid training
- Forest School Training
- Manual Handling Training
- Food Hygiene Training
- University Educational Trips
- Fundraising for Local & National Charities throughout the year
- Sports and Fitness Activities
- Careers events
- Personal Skills Support

OUR STUDENTS GO TO UNIVERSITY TO STUDY

- Foundation Degree in Childhood Studies
- PGCE
- BA (Hons) Early Years Education with QTS
- BA (Hons) Primary Education with QTS
- BA (Hons) Primary Education with QTS (School Based Route)
- BA (Hons) Early Childhood Studies
- BA (Hons) Children and Young People's Learning and Development
- BA (Hons) Teaching, Learning and Child Development
- BA (Hons) Working and Teaching in the Early Years
- BA (Hons) Working with Children 5 - 11

CAREERS

- Early Years Assistant
- Early Years Practitioner
- Children's Holiday Representative
- Teaching Assistant
- Primary School Teacher
- Learning Support Mentor
- Play Worker

STUDENT PROFILE - JESSICA

Former Our Lady Queen of Peace High School Pupil

Achieved:

Children's Play Learning & Development Level 3

Currently Studying:

CACHE Child Care and Education (Early Years Educator) National Diploma Level 3

“

I chose this college because it offered the course I wanted to take and it is my local college. I have gained so much work experience on my programme and I am currently on placement at St Richard's Primary School which I love. My tutors are beyond amazing and have been so supportive. After I complete my course I want to go on to study a BA in Primary Education with QTS.”

Electrical Installation

We have a thriving Electrical Installations department based in the brand new School of Science building. Qualified Electricians are likely to earn more than any other trade! Once qualified you will have many job opportunities to progress to either self employment or become employed as an Electrical Engineer, Contract Designer or Electrical Design Engineer. These careers will provide you with well paid job security for life.

OVERVIEW

Electrical installation technologies, installation of wiring systems and enclosures, electrical and electronic principles, measurement methods and control engineering, electrical testing and commissioning, electrical maintenance in buildings, installation of electrical equipment, electrical power for engineering installations.

COURSES

Electrical Installations Level 2

4 GCSE Grades 3-9 including 4 or above in Maths

Electrical Installation Level 3

Progression course

STUDENT EXPERIENCE

- Guest Speakers from industry and visits to Kewtech, Denmans, Northern & Central, Port of Liverpool, Fiddlers Ferry Power Station
- Links with employers including Greenhey Industrial & Marine Engineering Ltd, AC Electrical, Frontline, AEG Electrical Group, Ormskirk Electrical Service, CW Electrical & Plumbing and Stackright
- Progression to Apprenticeships
- Skills Competitions including World Skills UK

OUR STUDENTS HAVE GONE INTO EMPLOYMENT WITH...

- Greenhey Industrial & Marine Engineering Ltd
- Andrew Fairhurst Electrical Services Ltd
- Fix 360
- Hoult Group Services
- AC Electrical
- P & R Electrical Contractors Ltd
- AEG Electrical Group

CAREERS

- Electrician in Domestic, Commercial and Industrial Installations
- Commercial and Industrial Installations
- Electrical Supervisor
- Lighting Electrician/Operative
- Telecomms Electrician
- Testing & Inspection Electrician

Engineering

Engineers make an enormous impact on society. They use maths and physics and apply it to real-life problems. They fix things and provide solutions. Engineering offers good employment prospects, often with national and international opportunities. Our courses are designed to open up the world of Engineering and develop your knowledge and skills in design, manufacturing and maintenance.

OVERVIEW

Communications for engineering technicians, engineering project, mathematics for engineering technicians, mechanical principles and applications, electrical and electronic principles, computer aided drafting in engineering, principles and applications of thermodynamics, electronic fault-finding.

COURSES

Engineering Technology First Diploma Level 2

4 GCSE Grades 3-9 including Maths and/or Science

Engineering Extended National Diploma Level 3

4 GCSE Grade 4-9, 4 or above in Science and English and 5 or above in Maths

STUDENT EXPERIENCE

- Guest Speakers from industry and trade shows
- Live projects including HS2 and Future U Project
- Trips and visits including London
- 2D and 3D Computer Aided Design
- Links with employers and progression to Apprenticeships
- Fantastic Engineering facilities onsite including 3D System Cube Printers; CNC Routers; Floor Standing, PC controlled CNC Lathe T220i and a CAD suite.

OUR STUDENTS HAVE GONE INTO EMPLOYMENT WITH...

- Greenhey Industrial & Marine Engineering Ltd.
- Fix 360
- Houlton Group Services
- Hotter
- Walker Engineering

CAREERS

- Mechanical Engineer
- Production Engineer
- Engineering Maintenance Technician
- Motor Vehicle
- Mechanic/Technician
- Marine Engineer
- Heating & Ventilation Engineer
- Gas Engineer
- Electrician
- Electrical Engineer
- Electronics Engineer

Hairdressing

Do you have a passion for hairdressing? Learn the latest hairdressing techniques, and gain experience in The Imagery Hair & Beauty Academy. Women's and Men's Hairdressing is a fast moving, fashion orientated industry, releasing your creative and artistic talents. Hairdressing is an essential part to the world of Fashion and Beauty and at West Lancashire College we have designed programmes to support you in to industry.

OVERVIEW

Principles and practices of hairdressing and barbering services; shampoo, condition the hair and scalp; cut hair using basic techniques; style, set and dress hair; colour and lighten hair; shampoo, creatively style and dress hair; hair colour correction services; creatively colour and lighten hair; cut hair using a combination of techniques; creative hair design skills.

COURSES

Hairdressing Level 1

4 GCSEs Grade 2-9 including English and/or Maths

Hairdressing Level 2

4 GCSEs Grade 3 - 9 including English and/or maths

Hairdressing Level 3

Progression course

STUDENT EXPERIENCE

- Fantastic facilities
- Imagery Hair Academy Experience
- Taught by Wella Colour Masters
- Well established links with Employers
- Extensive Work Experience
- Salon products and promotions include; Silky, Neil and Wolf, Olaplex, Keratstraight, Nouvelle, Paintbang, Reload, Patisse, Hot tools, Ikoo

OUR STUDENTS HAVE GONE INTO EMPLOYMENT WITH...

Apprenticeships

Apprenticeships

Being an Apprentice gives you the opportunity to gain a nationally recognised qualification while gaining skills with an employer. Apprenticeships are growing and many more young people and employers are recognising them as a great way to start a career.

As a West Lancashire College Apprentice you will:

- Learn on the job, building up knowledge and skills and earning money at the same time.
- Receive a salary, paid holidays and opportunities to progress your career.
- Be trained in the workplace by a company mentor.
- Be visited regularly in the workplace by one of our experienced trainers and assessors.
- Attend college for off the job training.
- Improve English & maths skills.

We offer a range of Apprenticeships to choose from including:

Autocare Level 2

4 GCSEs Grade 3-9 including English and Maths

IT UP**
Apprenticeships

Make Steps to start your Apprenticeship

STEP 1	CHOOSE	We offer a range of different Apprenticeship Programmes. Look out for the Apprenticeship symbol in the subject area in this prospectus to identify all our Apprenticeship opportunities.
STEP 2	APPLY	Complete an application form either via our website or by contacting Admissions on 01695 52383 to register your interest for an Apprenticeships Programme at West Lancashire College.
STEP 3	EMPLOYED	You have a job with an employer.
	UNEMPLOYED	Find a job. All of our current Apprenticeships vacancies are available and can be applied for at www.apprenticeships.org.uk or at www.westlancs.ac.uk
STEP 4	EMPLOYED	Our Apprenticeship Team will work with you and your employer to organise your training.
	UNEMPLOYED	Attend one of our monthly Get Ready for Apprenticeship sessions. Our Apprenticeship Team will work with you to secure an employer. Help is available with Job Search, Career Coach, Interview Techniques and CV Writing.
STEP 5	BEGIN	You have secured your employment and now your training will start. An assessor specialising in your chosen area will meet and assess you both on the job and in college and support you to work towards your qualifications. They will set you assignments, complete observations and guide you towards achieving your Apprenticeship.
STEP 6	FINISH	After you complete your training? A high number of Apprentices will continue working with their employer as a permanent member of staff.

Foundation & Inclusive Learning Courses

Foundation & Inclusive Learning

The Faculty of Foundation & Supported Learning offers a wide range of excellent, high-quality vocational experiences, specialist resources and accommodation, giving learners the opportunity to participate in variety of practical activities linked to their specific needs. Our classes are small, and our teachers are committed and experienced. You can be confident that learning takes place in a fun, creative and supportive environment.

**WITHIN THE FACULTY WE OFFER
A RANGE OF PROGRAMMES
INCLUDING:**

Inclusive Learning Programmes

For students who have learning difficulties or disabilities and are looking for a flexible curriculum that enhances learning experience and provides strong 'foundations' that will provide benefits for working life, independent living, or progression to other courses. The programme is fun and engaging and is packed with a variety of opportunities to meet new people and to learn new and exciting skills.

Foundation Learning

We offer a range of Entry courses for 16- 18-year-olds who are unsure of their next steps and would like to investigate their career options before progressing onto more specific programmes in college. Our programmes will help students become familiar with the world of work, provide a variety of practical experiences linked to various careers and offer a supportive, caring, and nurturing environment.

Students can choose from:

Entry to Health, Education and Digital

This covers Health & Social Care, Early Years Education, IT & Business

Entry to the Creative Industries

This covers Hairdressing, Beauty Therapy and Art & Design

Entry to Sports and Uniformed Public Services

This covers elements of both Uniformed Public Services and Sports

Entry to the Construction Trades

This covers Bricklaying, Carpentry & Joinery and Plumbing

There are no formal entry qualifications for our entry level courses, however students must be willing and motivated to attend college and learn.

STUDENT EXPERIENCE

Trips and visits:

Blackpool Pleasure Beach, Chester Zoo, NCS, Velocity, Hurlston Hall, Jab Boxing.

Employer and Community Links:

Choose Life (Ex-prisoners' drug related role-play talk), Fire Service – Bright Spark – Firework Safety, Barclays Bank (Money Skills Talk), and Gary Skyner (Inspirational Speaker).

Volunteering:

Duke of Edinburgh Award, Canal and River Trust, West Lancashire Rangers.

Sports:

Lancashire FA Inclusion League – Football Team

STUDENTS HAVE PROGRESSED TO

- Further college programmes
- Employment
- Supported Internships

Safeguarding

We are committed to safeguarding and ensuring all students experience a secure, safe and welcoming environment in which they can fulfil their potential. We are also committed to assisting students to develop the skills necessary to take responsibility for their own safety. Specific policies and procedures are in place to safeguard young people (students under 18 years of age) and vulnerable adults; these are robust and are reviewed regularly.

Procedures are in place to take all reasonable measures to ensure risk is minimised and appropriate action is taken to address welfare concerns of young people and vulnerable adults. Our college community includes young people aged 14 to 18 and vulnerable adults. For this reason and as part of our commitment to safeguard our students and provide a safe place to learn, we are asking all potential students to disclose if they have a violent or sexual conviction. You will be asked to complete a declaration at the point of enrolment. If you do have convictions you will not be automatically excluded from enrolling on a college course. Each case will be considered on its own merits. For further information please ask to speak to a member of the Safeguarding Team.

The Prevent Duty

West Lancashire College is committed to Prevent. The Prevent Duty forms part of the Counter Terrorism and Security Act 2015, and the strategy responds to the ideological challenge we face from terrorism and aspects of extremism, and the threat we face from those who promote these views. It provides practical help to prevent people from being drawn in to terrorism and ensure they are given appropriate advice and support. It covers all forms of terrorism, including far right extremism and some aspects of non-violent extremism.

If you have any concerns about radicalisation, terrorism or extremism, please ask to speak to one of the Safeguarding Team.

Equality

West Lancashire College welcomes diversity in its student population – valuing differences in race, gender, sexual orientation, disability, religion or belief, class and age. We actively oppose discrimination, aim to remove all conditions that put people at a disadvantage, strive to improve access and to provide outstanding support. We are committed to providing an inclusive learning environment. We have produced a NCG Equality Strategy which sets out our response to statutory obligations and our approach to the active promotion of equality and diversity. Please discuss your support needs with us and we will make every reasonable effort to make adjustments to help you succeed.

Respect

At West Lancashire College we emphasise the importance of respecting all other people, be they staff, students or visitors to the college and respecting their property and the facilities of the college, which exist for the benefit of all students.

Security

To ensure the security of our students we operate an identity card system where students, staff and official visitors wear lanyards and badges. We will do our best to support the various needs of all our students and to help you all to achieve your learning goals. If you are a disabled person, please ensure that we know what you need so that we can make all reasonable adjustments to help you succeed. Students are asked to help us create an environment where everyone feels safe and valued and where you can work successfully to achieve your full potential.

Disclaimer

Every effort is made to ensure that the information contained in this prospectus is correct at the time of publication. We reserve the right however, to make alterations or amendments to the details contained in this booklet. Courses will operate subject to sufficient numbers.

NCG Guarantee

West Lancashire College is proud to be part of NCG, one of the country's leading college groups.

We are one of seven colleges across the country that make up NCG, meaning we're a key part of providing education and training to learners, apprentices and employers across the UK.

Together, we share expertise, support each other to grow, help each other to innovate and accomplish real change for individuals, communities and economies across the country.

Student benefits

Students studying at any of our colleges benefit from the NCG Guarantee. This guarantee gives all our students access to a range of tools and initiatives centred around a core set of principles. Our courses, additional support services and enrichment activities will equip you with a wider set of skills, all of which aim to make you more employable.

Put simply, the NCG Guarantee gives students access to additional activities, resources and initiatives to help you achieve your ambitions and career goals.

The NCG Guarantee is centred around:

- Employability
- Community
- Enterprise
- Mental Fitness
- Digital.

Throughout your time with us you will be involved in a range of projects and initiatives focused on these principles. Coupled with excellent teaching and learning, you will complete your course with a unique set of skills which help set you up for your future.

For more information on courses, you can contact us by post, phone, or email and ask for further information on the courses that interest you. You can also access detailed course information sheets on our website www.westlancs.ac.uk
